THE EVENING CRITIC.

This week and next Janauschek, the queen of tragedy, with a strong company, will present a series of favorite plays at Ford's Open-house. To-night "Mary Stunart' will be performed, and to-morrow and Saturday nights "Bleak House." Wednesday evening and at Saturday's matinee, "Mother and Son" will be produced in splendid style, a "Winter's Tale" Thursday night, and "Deborah" Friday, Janauschek is a great favorite in Washington, and her engagement, it is assumed, will be a successful one.

National Theatre.

"The World," after extensive preparations, will be introduced for the approval of the Washington public at the National Theatre to night. It is a realistic, sensational, spectacular drama that has met with overwhelming success elsewhere, and promises to attract overflowing audiences here. The fane of this great play, as chronicled in the New York press, preceded its visit to Washington and graphle stories have been printed of its wonderful, thrilling incidents and marvelous scenic effects. Matinees Wednesday and Saturday.

Theatre Comique. National Theatre.

Theatre Comique.

The managers of the Theatre Comique, not satisfied with the completeness of last week's bill, have engaged more stars, with new attractions, and announce a programme for the current week of rare excellence, including musical, odd and dramatic features. The drama "For a Life" will be presented by W. J. Thompson and Miss Lotts Forrest Thompson and their acting dogs, supported by the Comique company. Among the new specialty artists are Woods and Reagan, the Maxwells, John Fenton, Daisy Norwood, Mabel Leonard and others. Matinees to morrow and Friday.

J. Barron Hope.

This distinguished orator and composer.

This distinguished orator and composer will, by request, recite at Lincoin Hall tomorrow night his famous Yorktown Contennial poem. It will afford all an opportunity of hearing a grand production, which was so enthusiastically received on its original delivery on the field where Cornwallis surrendered. Seats at Ellis' music store.

The wonderfully too too esthete, Oscar Wilde, the now reigning sensation, will lecture to-night at Lincoln Hall on "The English Renaissance." He will doubtless have crowded houses, as the demand for seats has been enormous. A few choice seats can be secured this afternoon at Metze-

rott's.

The Post yesterday published a cartoon which Mr. Wilde's friends consider a deliberate insult. The following communication was sent to the editor of the Post, but its priblication was declined. At the request of Mr. Wilde's friends we publish

To the Editor Washington Post:

When a spiker has declared himself before his addience then he becomes a legitimate subject for criticism, but an attempt like this to prejudice him in advance, without the shadow of a reason must merit and receive the condemnation of all who can comprehend that ill-laste and bad judgment do not improve the columns of any reputable paper. Very truly yours, W.F. Morse,

Business Manager for R. D'Oyly Carte.

The Star-route Cases a Fat Homanza—Hig Bills and No Results.
National Republican to-lay.

It is said the Government prosecuting officers who have been preparing the information in the Star-route cases have nearly completed their work, and are now enter the grand jury. The cases which have been selected are, as near as possible, representative of the different degrees of fraud alleged to have been committed. This is another newspaper gush as to what is going to be done. The grand jury has been available, during the Guiteau trial for informat, about alleged Star-route frauds, and all other alleged misdeencaners within their jurisdiction, but now, the same as for past ten months, the presecutors are now ready to appear—only in the newspapers.

The correspondent of the Cincinnati Gazette writes: "Judge Wylie, to the Supreme Court of this District, was to-day assigned for the coming year to the criminal bench of the court, which will be charged with the trial of the Star-route frauds. His term begins the 1st of March, and these cases will be the first tried. Judge Wylie has long been connected with the court, and is known as insisting upon prompt mothods, and as being entirely fearless in the discharge of his duties. So far as Judge Wylie is concerned, the public can feel assured that the law will be vigorously administered without a shadow of fear or favor."

It is a pleasure to learn that an honorable

sured that the law will be vigorously administered without a shadow of fear or favor."

It is a pleasure to learn that an honorable Judge of the District Court has been assigned to preside over the Criminal Court, for our citizens began to be apprehensive that the judge to be assigned for the approaching term would be imported from Philadelphia and the jury selected from the Southern district of New York. It is stated that Special Assistant Attorney-General A. Mc Gibson and William A. Cook have put in bills for services in the Starroute cases of \$7,500 cach.

A United States district attorney, upon whom devolves the duty of prosecuting all alleged infractions of the United States laws within his jurisdiction, is allowed but \$6,000 per year. Here are bills for \$15,000 from two subs, with Bilss, Hinds, Woodward, Tidball, Shallcross, and an innumerable horde of attorneys, agents, and detectives still to be heard from, and no foothold yet maintained in the courts? Verily, the United States Treasury is a fat goose, to be plucked in the name of reform by an army of shysters and detectives.

There was a law in force a few years ago requiring the head of a Department to first show that the regular force of the Department was insufficient (or inefficient?) to attend to special matters arising before special counsel could be employed. It would seem proper, in order to protect the Treasury, that some such law should be revived.

would seem proper, in order to protect the Treasury, that some such law should be revived.

Reorganization of the Land-office. The sub-committee of the Senate, of which Senators Morgan and Blair are members, which has recently been investigating the General Land-office with the design of preparing a bill for its reorganization upon some more satisfactory basis, has about concluded its personal and minute examination of the clerks, books, systems, appliances, methods and accommodations at the disposal of this most important bureau. The investigation by the gentlemen of the committee has been most painstaking and laborious. They have personally visited every nook and cranny of the various rooms now occupied by the General Land-office, carefully examining into such questions as those of ventilation, desk-room, storage of records, and the like, while they have even had careful diagrams of some of the rooms prepared wherewith to illustrate their forthcoming report, which will be looked for with great interest, not only by the gentlemen employed in the office itself, but also by the public at large.

After years of almost hopeless struggle against arrearages of work, insufficiency of force and utterly inadequate accommodations in the matter of room, the necessities of a bureau which contains within its invaluable records what may be termed the very title-deeds to three-fourths of all the landed property and mineral resources of this broad Union are beginning to attain some measure of public recognition, which it is hoped may lead to improvement in the official management of these great interests. The members of the committee have received much invaluable assistance from Commissioner McFarland is carnest, patient and persevering in the extreme; although overrun with ever-accumulating afrearages of work, his industry never tires. He has made but few changes alnce his administration of the office commenced, and no violent ones; while he exems to appreciate thoroughly the value and truth of the Latin prover, festiva lead

tration opens well.

A Small-pox Remecty.

The following remedy for small-pox was taken from the Staunton (California) Herital: "I herewith append a recipe which has been used to my knowledge in hundreds of cases. It will prevent or cure the small-pox, even though the pittings are filling. When Jenner discovered cow-pox in Eugland the world of science hurled an avalanche of fame upon his head, but when the most scientific school of medicine in the world—that of Paris—published this recipe as a samacea for small-pox, it passed unheeded. It is as unfalling as fate are conquers in every instance. It is harmly when taken by a well person. It will also cure scarlet fever. Here is the recipe as I have used it and cured my children of scarlet fever; here it is as I have used it to cure the small-pox. When learned physicians said the patient must die it cured. Sulphate of zine, one grain; forgiove (digatalis), one grain; half a teaspoonful of singer mix with two tablespoonfuls of water. When learned physicians will disappear in twelve hours. For a child smaller doses, according to age. If counties would compal their physicians to use this there would be no med of post-houses. If you value good advice and experience, use this for that terrible disease."
